PHOTOGRAPHY GUIDE

CHRISTY WALLIS PHOTOGRAPHY

WELCOME

I'm so honored that you have contacted me regarding portraits of your new little love. This is a very special time and photographs can preserve these priceless memories for you. I would love to be the one to create these beautiful works of art for you to cherish forever of your sweet baby and to place all around your home.

My name is Christy and I have been a newborn photographer for 11 years photographing hundreds of San Diego's tiniest residents. I was recently named one of the top 10 newborn photographers in the state of California by Photography Magazine and the 2020 Photographer of the Year by San Diego Business. I have the best equipment, most beautiful props and have been trained by some of the top newborn photographers in the world.

All of my newborn sessions are conducted in my Rancho Bernardo home studio. I have tons of cute outfits for both boys and girls and sweet simple props that keeps the focus on your baby's beautiful face. You are welcome to bring an outfit or two as well. While I plan out the whole session myself, I do love knowing if you have certain colors you would like me to use so you will love your photos.

My style is dreamy, organic and a bit rustic, and definitely timeless.
I would love to gift you with these beautiful treasures.

Christy Wallis

Baby Milestone **SESSIONS**

MILESTONE SESSIONS \$200 (deposit and **WILL** be applied to your final order)

During your baby's first year, it is so fun and exciting to watch as baby learns to smile, grab her feet, sit up on his own, and take those first wobbly steps. At Christy Wallis Photography, we want to be the ones to help you capture your growing baby so you can always remember. These adorable one hour sessions take place indoors in our Rancho Bernardo home studio and are for baby only. Please check my availability first and Book online at <https://christywallisphotography.com/payments/> The minimum purchase is Collection A. See next page for Collections.

- ♥ *Under 3 weeks* Please see separate Newborn Pricing Schedule
- ♥ *3-5 months* While milestones can be taken any time during the first year at our studio, after newborn (which are taken when the baby is under 3 weeks old and have a separate pricing schedule), we recommend waiting until the baby can smile to do the first set of milestones, usually around 3 months of age. At this age, we would still be using some of the same props as you see in Christy's newborn photos with wraps and blankets since baby can't sit up yet.
- ♥ *6-11 months* Once baby can sit up unassisted, we can get a ton of cute photos. The outfits and props are provided by the studio and parents are welcome to bring one outfit as well.
- ♥ *One year* First birthday portraits are a fun shoot that can be with or without a cake smash at the end. Outfits and headbands are provided and parents are welcome to bring one outfit as well. Parents bring the cake and there is an option to do a metal basin bath photo afterward.
